SUBJECT: Outstanding Materials Support

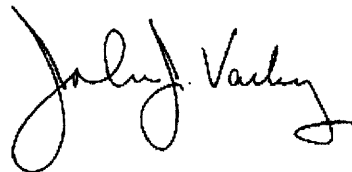

DATE: 5 March 2009

I would like to personally thank you for your outstanding support to Lockheed Martin Missiles and Fire Control and our Customers throughout 2008. One of my focus items last year was to raise the bar for Supply Chain performance, expecting 100% on time delivery and 100% quality to maximize mission success. You have achieved a rating of 100% for both quality and delivery for 2008, an exceptional accomplishment. This achievement is a testament to the total commitment by your management and workforce to performance and customer satisfaction.

I look forward to another successful and prosperous year. Thank you!
